## 1.2 Application

This Determination applies to **South Gippsland Water** and its successors and assigns in respect of the business carried on by **South Gippsland Water** at the date of this Determination.

### (b) Next regulatory period

Subject to clause 2.3(b)(ii), if the Commission has not made a determination in respect of the prices to apply in the **next regulatory period** on or before 30 June 2018, the prices or the manner in which such prices are to be calculated or otherwise determined as set out in this Determination will continue to apply in respect of **prescribed services** provided by **South Gippsland Water** between 1 July 2018 and the date on which the determination for the **next regulatory period** comes into effect.

### 2.1 General principles

Subject to this Determination:

#### (a) Scheduled prices

**South Gippsland Water** must not charge more than:

- (i) the scheduled prices in Schedule 2, during the first **regulatory year**, and
- (ii) the amounts determined in accordance with clause 2.3, during each subsequent **regulatory year**,

in respect of those **prescribed services** to which the scheduled prices in Schedule 2 relate.

**(b) Application principles**

The application principles in Schedule 3 will apply to the prices charged by **South Gippsland Water** in respect of **prescribed services** during the **regulatory period**.

**(c) Pricing principles**

During the **regulatory period**, **South Gippsland Water** must apply the pricing principles in Schedule 4 when determining the prices to apply to the **prescribed services** to which the pricing principles in Schedule 4 relate.

## **2.2 Ancillary matters**

**(a) Contracts**

Where **South Gippsland Water** has entered into a contract (a **relevant contract**) which relates to the provision of **prescribed services** prior to 1 July 2013, **South Gippsland Water** may charge the prices for **prescribed services** which are set out in that **relevant contract** until its expiration, termination or a periodic review of the prices set out in the contract. Once a **relevant contract** has expired or been terminated or the prices in a **relevant contract** have been subject to a periodic review, the scheduled prices in Schedule 2 (as adjusted in accordance with this Determination) or the prices determined in accordance with the pricing principles in Schedule 4 will apply for the remainder of the **regulatory period**.

**(b) Dispute Resolution**

Any question as to whether a price has been set in accordance with this Determination will be determined by the Commission on the basis of the Commission's interpretation of this Determination.

**(c) Publication**

**South Gippsland Water** must publish a schedule of its current prices and pricing principles for **prescribed services**, and all relevant supporting information that is relied upon to apply the prices or pricing principles, on its website at all times during the **regulatory period** and must provide a written copy of the schedule to its customers on request. The schedule must clearly indicate in respect of each price, the amount determined in accordance with this Determination, the amount of GST payable and the total price

(in a manner consistent with the requirements of the *Competition and Consumer Act 2010* (Cth)).

**(d) GST**

**South Gippsland Water** will not be considered to be in contravention of this Determination if a price charged by it for a **prescribed service** exceeds the amount determined in accordance with clause 2 only by reason of the levying of a charge on account of **GST**.

## 2.3 Annual adjustment of prices

**(a) Adjustment**

(i) Subject to Schedule 2, the scheduled prices in Schedule 2 will be adjusted in each subsequent **regulatory year** in the **regulatory period** in accordance with the formula in clause 2.3(b)(i) and the procedure in clause 2.3(c), and will apply to the **prescribed services** to which the scheduled prices in Schedule 2 relate in that **regulatory year**.

**(b) Formula**

(i) Subject to Schedule 2, each price for the **prescribed services** referred to in clause 2.3(a) will be adjusted in accordance with the following formula with effect from the beginning of each subsequent **regulatory year** in the **regulatory period**:

$$P_t = P_{t-1} * CPI_t * (1 + PPM_t)$$

where:

$P_t$  is the price component for **regulatory year t**

$P_{t-1}$  is the price component for **regulatory year t-1**

$CPI_t$  for the particular **regulatory year** is:

the Consumer Price Index: All Groups Index for the Eight Capital Cities as published by the Australian Bureau of Statistics for the March quarter immediately preceding the start of the relevant **regulatory year**

**divided by**

the Consumer Price Index: All Groups Index for the Eight Capital Cities as published by the

Australian Bureau of Statistics for the March quarter immediately preceding the March quarter referred to above

$PPM_t$  is the prescribed price movement for the price component for **regulatory year**  $t$  determined in accordance with Schedule 2.

- (ii) If the Commission has not made a determination in respect of the prices to apply in the **next regulatory period** on or before 30 June 2018,  $PPM_t$  will be set equal to zero for the purpose of adjusting prices in accordance with the formula in clause 2.3(b)(i) for **regulatory years** commencing on or after 1 July 2018 until the date on which this determination is amended or revoked by a later determination.

**(c) Adjustment procedure**

- (i) At least 30 **business days** prior to the commencement of each subsequent **regulatory year** in the **regulatory period, South Gippsland Water** must submit its proposed prices for the **prescribed services** referred to in clause 2.3(a) to apply in that subsequent **regulatory year** (the **revised prices**) to the Commission for approval, together with sufficient information to enable the Commission to assess whether the proposed prices comply with this Determination.
- (ii) The Commission will approve the **revised prices** if it considers that they have been calculated in accordance with the formula set out in clause 2.3(b)(i).
- (iii) The Commission will be deemed to have approved the **revised prices** if it has not provided notice under clause 2.3(c)(iv) to **South Gippsland Water** within 20 **business days** from the date of its receipt of the **revised prices**.
- (iv) If the Commission does not approve the **revised prices**, the Commission:
  - (A) will provide notice to **South Gippsland Water** (including a statement of its reasons);

- (B) may request **South Gippsland Water** to provide any additional information specified by the Commission;
- (C) will take any additional information provided by **South Gippsland Water** into account; and
- (D) will determine the **revised prices**.

## 2.4 Price changes during a billing period

### (a) Application of this clause

This clause 2.4 applies where **South Gippsland Water** issues an invoice in respect of a billing period during which a change to any price for a **prescribed service** comes into effect in accordance with this Determination.

### (b) Method of charging

**South Gippsland Water** must not charge the prices determined in accordance with this Determination in respect of any part of a billing period prior to the effective date of the change, but may charge for **prescribed services** in respect of the periods before and after the effective date of the change at the prices applicable for each of those periods on a pro-rata basis.

## 2.5 Reporting requirements

- (a) **South Gippsland Water** must make available to the Commission all information reasonably requested by the Commission from time to time for the purpose of enabling it to confirm that **South Gippsland Water** is complying with this Determination.
- (b) Without limiting clause 2.5(a), if, during the **regulatory period**, **South Gippsland Water** enters into a **new contract** which relates to the provision of a **prescribed service** to which the pricing principles in Schedule 4 relate, **South Gippsland Water** must, within 30 **business days** of the date of the **new contract**, on request provide the Commission with a notice specifying:
  - (i) details of the **new contract**; and
  - (ii) information which demonstrates the way in which the prices in the **new contract** reflect the relevant pricing principles.

  - (ii) The average price movement for the **relevant regulatory year** and for each subsequent **regulatory year** in the **regulatory period** determined in accordance with the **revised tariff schedule** must not exceed the average price movement that would otherwise have applied under this Determination as calculated in accordance with the following formula.

$$\frac{\sum_{i=1}^n \sum_{j=1}^m p_t^{ij} q_{t-2}^{ij}}{\sum_{i=1}^n \sum_{j=1}^m p_{t-1}^{ij} q_{t-2}^{ij}} \geq \frac{\sum_{i=1}^n \sum_{j=1}^m ap_t^{ij} q_{t-2}^{ij}}{\sum_{i=1}^n \sum_{j=1}^m p_{t-1}^{ij} q_{t-2}^{ij}}, i = 1, \dots, n; j = 1 \dots m$$

where **South Gippsland Water** has  $n$  tariff categories, which each have up to  $m$  tariff components, and where, for each **regulatory year**  $t$  for which the calculation is undertaken:

$p_{t-1}^{ij}$  is the tariff charged in **regulatory year**  $t-1$  for component  $j$  of tariff  $i$

$p_t^{ij}$  is the proposed tariff for component  $j$  of tariff  $i$  determined in accordance with Schedule 2 where the **revised tariff schedule** is not applied

$ap_t^{ij}$  is the proposed tariff for component  $j$  of tariff  $i$  determined in accordance with Schedule 2 where the **revised tariff schedule** is applied

$q_{t-2}^{ij}$  is the quantity of component  $j$  of tariff  $i$  that was sold in **regulatory year**  $t-2$ , or, if an actual quantity is not available, either an estimate of the quantity of component  $j$  of tariff  $i$  that would have been sold in **regulatory year**  $t-2$  or a forecast of the quantity of component  $j$  of tariff  $i$  that is expected to be sold in **regulatory year**  $t-2$

**(b) Amendment procedure**

- (i) An application by **South Gippsland Water** under this clause 3 must be received by the Commission at least 80 **business days** prior to the commencement of the **relevant regulatory year** and must be accompanied by the following information:

- (A) (1) a clearly articulated new tariff strategy that is consistent with the regulatory

principles in clause 14(i)(a) of the *WIRO* (the **revised tariff strategy**); or

### Application of prices

#### 3.1 Water access fees

Towns are allocated to water tariffs as follows:

<u>District</u>	<u>Towns</u>
East/West District:	Alberton, Devon North, Dumbalk, Fish Creek, Foster, Koonwarra, Korumburra, Leongatha, Loch, Meeniyan, Nyora, Port Albert, Port Franklin, Port Welshpool, Poowong, Toora, Welshpool, Yarram
Southern District	Cape Paterson, Inverloch, Wonthaggi

Water access fees apply to vacant land (undeveloped) properties where the property has the ability to connect to such services.

#### 3.2 Sewerage access fees

Sewerage access fees apply to developed land and also vacant land (undeveloped) properties where the property has the ability to connect to such services. Sewerage customers are not subject to any other cistern/trade waste charges.

#### 3.3 Cistern access fees

Cistern access fees are applied to relevant non-residential customers classified as large volume cistern dischargers. Some customers can be charged both a cistern access fee and trade waste access fee (where their waste impacts in cistern and trade waste loadings), however, in these rare circumstances, only the volumetric cistern waste charge would be applied.

Cistern customers are not subject to sewerage access fees.

#### 3.4 Cistern volumetric charge

Cistern volumetric charges are applied to relevant non-residential customers as a percentage of metered water use. The percentage varies based on the activity of the non-residential customer as follows:

<u>Percentage</u>	<u>Activity</u>
80 per cent	Business, Community Services, Education, Religious, Dwelling
55 per cent	Tourism, Hospitals

30 per cent          Sporting

Cistern customers are not subject to any other volumetric waste charges.

### 3.5 Minor trade waste fees

Trade waste access fees, volumetric, quality and other trade waste charges are applied to relevant non-residential customers classified as trade waste dischargers. Some customers can be charged both a cistern access fee and trade waste access fee (where their waste impacts in both cistern and trade waste loadings), however, in these rare circumstances, only the volumetric cistern waste charge would be applied.

Trade waste customers are not subject to sewerage access fees.

### 3.5 Miscellaneous fees and charges

The following table sets out the definitions of the miscellaneous charges contained in Schedule 2.

Miscellaneous service	Definition
Property information statements (per application)	Fee imposed for providing a certificate issued in accordance with Section 158 of the Water Act 1989.
Special meter readings (per application)	Fee imposed for providing a certificate which indicates water usage charges up to a specified date. Generally provided, on application, for property sales.
Administration developer fee	Fee charged to cover administration costs for time spent on processing new developer funded applications.
Plumbing Industry Commission (PIC) fee (per application)	Fee imposed for providing sewer plans and processing applications to connect or modify plumbing.
Standpipe water sales	Fee imposed for the sale of water via a metered standpipe.
Septic tank waste receipt (per kL)	Fee imposed on septic tank waste carters, for the disposing of sewage and/or other acceptable waste.
Connection fee	Fee imposed for meter and labour associated in providing a tapping to the water main.

### Pricing principles

#### 4.1 Recycled water pricing principles

Recycled water prices should be set so as to:

- have regard to the price of any substitutes and customers' willingness to pay;
- cover the full cost of providing the service (with the exception of services related to specified obligations or maintaining balance of supply and demand); and
- include a variable component.

Where **South Gippsland Water** does not propose to fully recover the costs associated with recycled water, it must demonstrate to the Commission that:

- it has assessed the costs and benefits of pursuing the recycled water project;
- it has clearly identified the basis on which any revenue shortfall is to be recovered; and
- if the revenue shortfall is to be recovered from non-recycled water customers, either the project is required under the Statement of Obligations which applies to **South Gippsland Water** or pursuant to other Government policies that apply to **South Gippsland Water** or there has been consultation with the affected customers about their willingness to pay for the benefits of increased recycling.

#### 4.2 Pricing principles where scheduled prices do not apply

Where the prices set out in Schedule 2 do not apply because the nature of the service provided to a particular customer (including, in the case of trade waste customers, the volume or load of waste treated) is unique, prices must be set as follows:

- variable prices (including, in the case of trade waste customers, load-based charges) should reflect the long run marginal cost (LRMC) of providing services (including, in the case of trade waste customers, trade waste transfer, treatment and disposal);
- the total revenue received from each customer should be greater than the cost that would be avoided from ceasing to serve that customer, and (subject to meeting avoidable cost) less than the stand alone cost of providing the service to the customer in the most efficient manner;
- the methodology used to allocate common and fixed costs to that customer should be clearly articulated and be consistent with any guidance provided by the Commission;

- prices should reflect reasonable assumptions regarding the customer's demand for services (including, in the case of trade waste customers, the volume and strength of trade waste anticipated to be produced by that customer);
- depreciation rates and rates of return used to determine prices should be consistent with those adopted by the Commission for the purposes of making this Determination;
- customers should be provided with full details of the manner in which prices have been calculated and any new, renewed or renegotiated contractual agreements with customers should indicate that the prices to apply are subject to any Determination made by the Commission;
- where applying these principles results in significant changes to prices or tariff structures, arrangements for phasing in the changes may be considered and any transitional arrangements should be clearly articulated.

### **4.3 Pricing principles for New Customer Contributions (NCC)**

#### **Core pricing principles**

NCC, including standard or negotiated NCC, will be calculated by applying the following core NCC pricing principles.

Standard and negotiated NCC will:

- have regard to the incremental infrastructure and associated costs in one or more of the statutory cost categories attributable to a given connection;
- have regard to the incremental future revenues that will be earned from customers at that connection;
- be greater than the avoidable cost of that connection and less than the standalone cost of that connection.

Notes:

1. Given that NCC are to be based on the net incremental cost of connection (ie incremental costs net of incremental benefits), in this context, the costs referred to in the efficient pricing bound are the net costs, specifically the avoidable net cost of connection and standalone net cost of connection.
2. Where the connection arrangement requires assets to be gifted, the value of gifted assets will be excluded for the purpose of calculating net costs.
3. Incremental costs may include financing costs associated with constructing an asset sooner than planned.

### **Incremental financing costs**

Incremental financing costs (IFC) should be calculated using this formula:

$$\text{IFC} = (1 - [1/ (1+r)^n]) \times \text{cost of capital being provided sooner than planned}$$

where:

r = estimated pre-tax WACC

n = the number of years the asset is required sooner than planned.

### **Gifted Assets**

**South Gippsland Water** can require developers to provide and gift to **South Gippsland Water** specified assets as a condition of connection, provided that **South Gippsland Water**:

- makes clear to potential developers which assets a developer will be responsible for providing and gifting, and which will be provided by **South Gippsland Water**,
- confirms that negotiation of any non-standard connection and associated charges will be undertaken in accordance with **South Gippsland Water's** [published] negotiating framework; and
- the value of gifted assets will be excluded for the purposes of calculating net costs.

### **4.4 Pricing principles for miscellaneous services not included in Schedule 2**

Prices for miscellaneous services must be set according to actual cost calculated on the basis of the aggregate of:

- direct third party or contractor invoice cost;
- direct marginal internal costs, including labour, materials and transport costs; and
- a fair contribution to overheads.

For bank dishonour, debt collection and legal fees, the third party costs must be charged directly to the customer with no contribution for internal costs or a contribution to overheads.

## 4.5 Guidelines

*South Gippsland Water* must comply with any guidelines issued by the Commission from time to time which relate to the setting of prices for **prescribed services** to which Schedule 4 relates.

**The Common Seal** of the **Essential Services Commission** was affixed to this Determination with the authority of the Commission.
