

# Management Bios

Flow Power's proven and experienced senior executive team have been key to the growth and development of the business into a disruptive force in the Australian electricity retail sector.

**Matthew Van Der Linden**  
**CEO**

- Matthew Van Der Linden is Founder and MD of Flow Power and energy management practice Utilacor
- His vision is to create better energy retail options and transform the way the Australian industry uses energy
- In 2009, Matthew began the energy retailer formerly known as Progressive Green Energy that became Flow Power in 2017

**Lachlan Jacobson**  
**CFO**

- As leader of the finance team Lachlan is focused on value creation and scaling Flow Power to support Australia's renewable energy transition.
- Lachlan has a debt finance background with 10 years of energy industry experience. Most recently he led commercial finance for Tesla's energy business in APAC, driving growth through successful execution of clean energy projects like the South Australian VPP.

**Byron Serjeantson**  
**COO**

- Byron Serjeantson has a background in engineering, economics and business, and a wealth of experience in the energy and renewables sectors
- Byron leads the engineering divisions in their delivery of energy projects for customers, as well as the growth and development of Flow Power's renewable portfolio

**Jonathan Mitchell**  
**General Counsel & Company Secretary**

- Jonathan Mitchell is an experienced energy and resources lawyer with expertise across major projects, JVs, acquisitions and divestments, utilities regulation, commercial contracts, electricity and gas supply contracts and carbon advisory
- Prior to joining Flow Power in 2019, Jonathan was a Senior Associate at King & Wood Mallesons, specialising in energy, resources and projects

**Jacob Mahoney**  
**GM – Energy Solutions**

- Jacob Mahoney has been in the energy industry for over 8 years previously working in Energy Consultancy firms specialising in tenders and customised energy management solutions for commercial and industrial clients
- His dedication to customers is of the highest level implementing strategies that resulted in retention rates of >90% of load under management

**David O'Connor**  
**GM – Human Resources**

- David O'Connor commenced consulting with Flow Power in 2012 when there were only a few employees. David built Flow Power's HR framework to support the extensive expansion into the business it's become today
- He brings extensive knowledge to Flow Power; day-to-day HR Management and specialises in Industrial Relations and Remuneration & Benefits
