

Minimum feed-in tariff review 2021-22

Submission received through Engage Victoria

Date submitted: 20 November 2020

Submission written by: Anonymous

From 17 November 2020, we began accepting submissions on our Minimum feed-in tariff review 2021-22 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

1. Do you agree with the proposed single and time-varying feed-in tariff rates?

No.

2. Do you have any comments about your answer?

I cannot believe the hypocrisy of YOU people and the Victorian Government. After spending years trying to convince people to buy solar panels, as soon as they do, YOU drop the feed in tariff, to hurt them. I bought a solar system 11 months ago, based on a 12 cent FIT then you dropped it to 10 cents now you want to drop it to 7 cents. this is a breach of contract for anyone who bought a solar system. and you say the wholesale price has dropped, NO IT HASN'T. I pay a higher KWH rate now, than ever before.

How do you justify this ludicrous decision?

3. Are you being notified by your retailer of changes to the feed-in tariff with enough time to look at other offers?

No.

4. Do you agree with our decision to require retailers to notify solar customers of changes to their feed-in tariff rate before the change takes effect?

Yes.

5. Please describe any other matters you want us to consider in our review or to raise with us.

I cannot believe the hypocrisy of YOU people and the Victorian Government. After spending years trying to convince people to buy solar panels, as soon as they do, YOU drop the feed in tariff, to hurt them. I bought a solar system 11 months ago, based on a 12

cent FIT then you dropped it to 10 cents now you want to drop it to 7 cents. this is a breach of contract for anyone who bought a solar system. and you say the wholesale price has dropped, NO IT HASN'T. I pay a higher KWH rate now, than ever before.

How do you justify this ludicrous decision?
