

Minimum feed-in tariff 2024-25

Submission received through Engage Victoria

Date submitted: 22/11/2022

Submission written by: PAUL BERG

From November 2023, we began accepting submissions on our Minimum feed-in tariff review 2024-25 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

What parts of our proposed methodology for setting the flat and time-varying minimum feed-in tariffs do you support?

I don't support anything about the proposal. it is ridiculous to even contemplate.

What parts of our proposed methodology should we change?

The feed in tariff should not be decreased at this stage at all. It should be increased.

For our overall methodology, or parts of it, what alternative methodologies should we consider?

Before considering anything, the charges for electricity should be reduced first as was promised prior the election. They are far too high.
