

Minimum feed-in tariff 2023-24

Submission received through Engage Victoria

Date submitted: 21/12/2022

Submission written by: Angelos Kenos

From December 2022, we began accepting submissions on our Minimum feed-in tariff review 2023-24 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

What parts of our proposed methodology for setting the minimum single and time-varying feed-in tariff rates do you consider are appropriate?

You have selected methodology that supports producers winning and house holds losing out

What parts of our proposed methodology should we change?

Look at the whole package - WHY select something that gives mega profits to producers

For our overall methodology, or parts of it, what alternative methodologies should we consider?
