

Essential Services Commission.

Goulburn Murray Water PRICING Review.

Attention: on David Hepps and Jason Fitts.

Dear David and Jason,

Following the recent meeting held in Kerang I wish to comment and offer
Suggestions on GM-Water single Pricing Strategy

In the short term I think the only way forward is to re-inforce the suggestion
forward at this meeting by Mr McKinnon of Pyramid Hill.

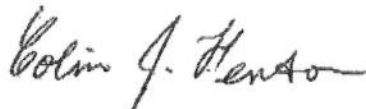

Quote " where the pricing of each GM-Water district should remain district
by district until the Connections program is completed" end of quote.

It has become very clear that the level of services will differ quite substantially
from district to district due to the varying types of Agriculture business in each
district in the future.

Thus One (Single) price will not reflect the types of costing delivery required
and therefore should be costed on each districts basis. (Refer the McDonald
Review for further clarification).

Hoping this is clear to you both. Should you need to further discuss these points
feel free to contact me. My mobile is

Kind Regards to you both.

Colin J Fenton
