

Dear ESC,

I, Tammy Logan and my extended family support the Western District Sewerage Scheme (Nyora, Loch, Poowong). It is unacceptable that this situation has been allowed to go on for so long. There is contaminated water in our streets and backyards (I've read the reports and you can see it and smell it). I fear for the health and wellbeing of myself and my children as we go about daily activities in the town and play in our backyard. The risk is unnecessary!

Kind regards,

Tammy Logan
